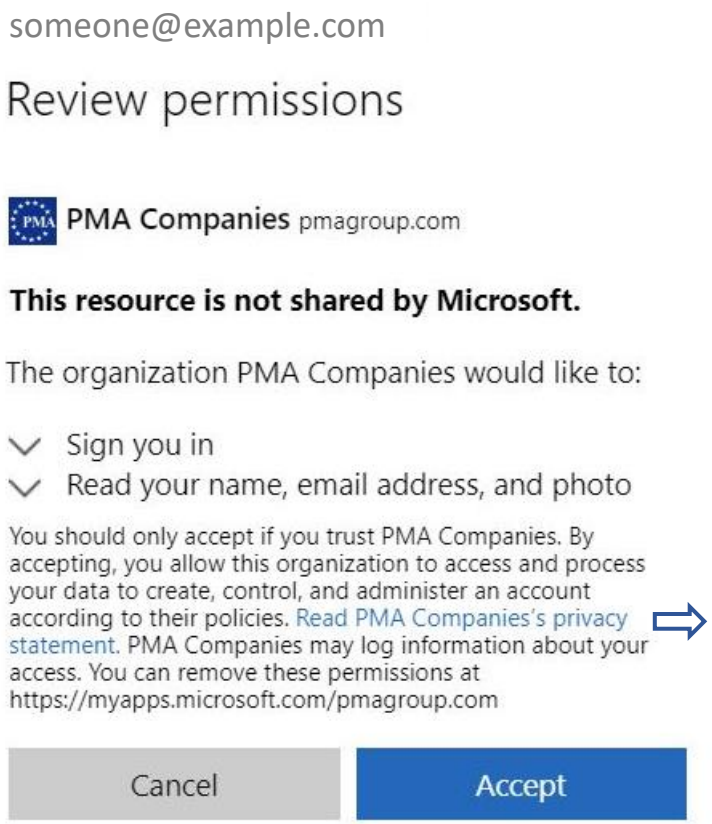
When you sign in for the first time…

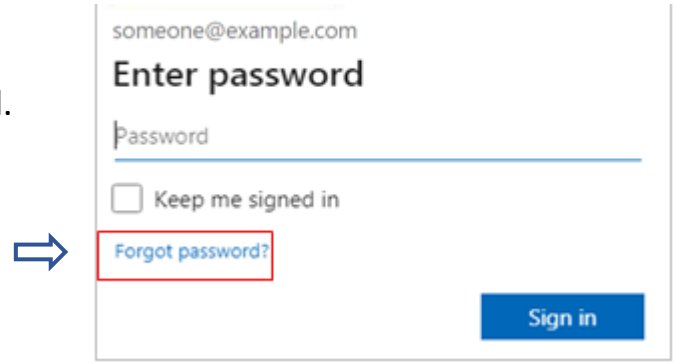
If the email used to register is tied to a personal or professional Microsoft account, you can sign in with that email and password.

If you don't remember your password or you don't have a Microsoft account, follow the instructions on page 2.

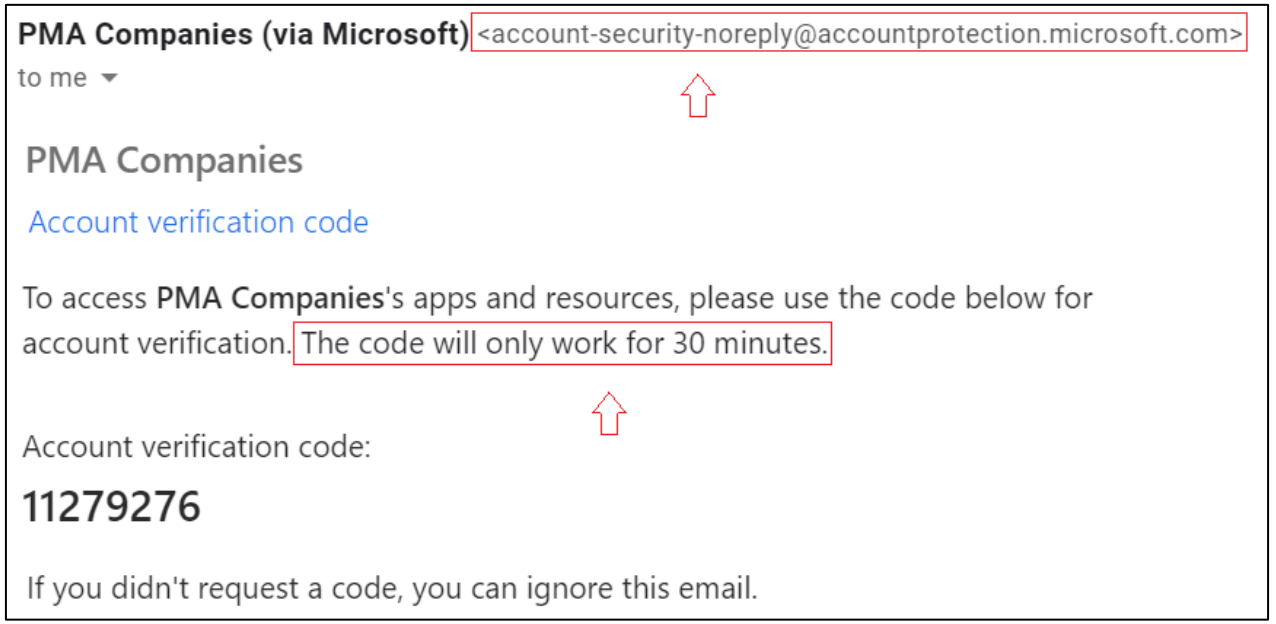
The first time in, you will be prompted to accept ORCR's Privacy Policy.
Our full privacy policy can be found at www.orcommercialrisk/privacy-policy or accessed via the link provided on the Review permissions screen.

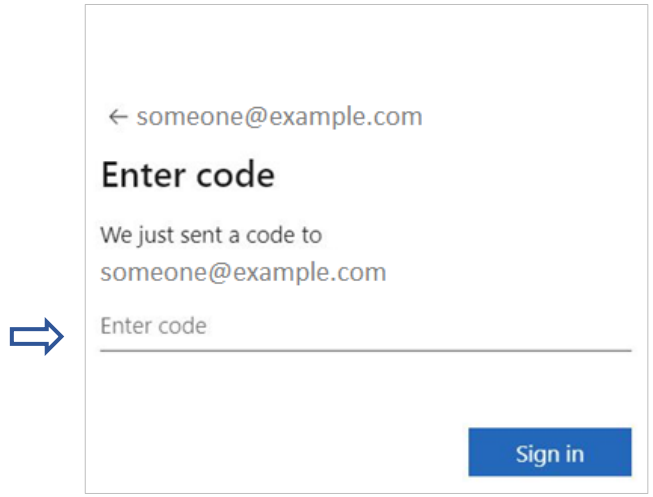


Forgot Microsoft account password?
Use the link on the sign in screen and follow the prompts to identify yourself and reset your password.



No Microsoft account?
Use the email associated with your Websource registration and follow the prompts to enter the **temporary** verification code sent via email. This step will be required each time you sign in. Below is an example of the security email you will receive from: account-security-noreply@accountprotection.microsoft.com





To report an issue or request assistance with sign in, please email:
ORCRWebsource_Admin@orcommercialrisk.com
